Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions.

• Students are often worried about their chances of admission to University.

 The aim of this project is to help students in shortlisting universities with their profiles.

• The predicted output gives them a fair idea about their admission chances in a particular university.

• This analysis should also help students who are currently preparing or will be preparing to get a better idea.
